**Jet** MACHINE WORKS, INC.

*Machine Shop Sub-Contracting At Its Best.*

Since our beginning in 1977, Jet Machine Works has maintained a healthy, viable growth pattern. Business increased even during the depressed market of the mid-1980s.

Today, with a diversity of equipment and a wealth of expertise, Jet Machine Works services many industries. Currently, we are involved with all facets of the petroleum, mining, heavy equipment and power generation industries.

Whatever your sub-contract requirements may be, you can count on Jet Machine Works for stability, creativity, service and delivery.

It does not matter from what source your components began -- forgings, plates, castings or fabrications -- we can produce to your satisfaction. You can count on Jet Machine Works for ingenuity and unsurpassed quality.
